TIGO Report
May 2020

It is once again a great honour to be able to share with you what the Lord has enabled us to do as TIGO. Truly it was not easy particularly with the lockdown because of the Covid19 but God saw us through.

FOOD DISTRIBUTION

I am happy to report that we were able to give all our children their food hampers and as usual it was all smiles. The food situation in the country is desperate hence the big smiles on the faces of the children and their guardians. We distributed a double portion at once because the government had pronounced a lockdown for 21days which would make it difficult to move around giving children food.

HEALTH ISSUES

In April Denford Chipanera of Gan'a circuit suffered a fractured left hand. We took him to hospital and the hand was put in plaster. He is recovering well at home.

COVID 19

This pandemic has cause a lot of suffering in people. We are under a lockdown and this have affected the education of our children and also many people don't have enough food. Some guardians are no longer going to work and in a home there is no more income. I am afraid also the spiritual life of our children may be compromised for they can not gather at church and encourage each other. As for schools we don't even know when they will open and in shops, prices continue to go up which means life will be more difficult. However in all this we continue to thank God for his plans for us.

In conclusion I want to thank you all for standing with us even at this difficulty time. Your hand of assistance is greatly appreciated.

Thank you
Nomsa Nyoni
